What Is It?

Redirect a domestic shipment that hasn't been delivered or released for delivery. Available for packages, letters, and flats with a tracking or extra services barcode and all mail classes, except Standard Mail® and Periodicals (other restrictions may apply).

How It Works

- Verify your shipment is eligible for Package Intercept.
- If eligible, log in to your account and submit your request.
- You'll receive an estimated total (estimated Priority Mail® postage plus intercept fees). We will then attempt to intercept and redirect the shipment.
- The Postal Service® will make every effort to locate your item; however, there is no guarantee for this service.
- If the package is intercepted, your credit card will be charged the Package Intercept fee plus the estimated postage. If the actual postage due is greater than the estimated postage, any additional postage due will be collected at delivery (or pickup).
